

YEAR 2- Spring 2

OUR TOPIC FOR THIS HALF TERM:

In Geography, we will be learning about UK towns and cities. The children will identify different countries, capital cities and towns of the UK. We will also be looking at the different landmarks in the UK.

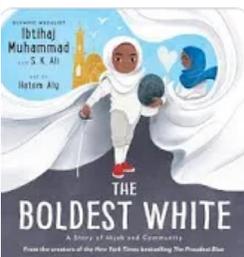

In DT, the children will be using a variety of materials to make a free standing structure. They will explore the best materials to use and different methods of joining them together.

OUR QUALITY TEXT:

In English, we will be looking at 'Leaf'.

We will be learning to use coordinating conjunctions that are used to join two sentences together, for example: so, and, but and or.

Author of the term

We are really enjoying the books by our author of the term, Ibtihaj Muhammad.

Please ensure you are reading with your child 3 times a week and recording this in their reading record.

KEY LEARNING IN MATHS:

In Maths, we will be focussing on measuring. The children will learn to measure length and height in centimetres and metres. They will then measure weight and capacity, using standard units of measure.

We will be consolidating our knowledge of multiplication and division where we will look in depth at the 5, 10 and 2 times tables, followed by more formal methods of calculating multiplication and division problems.

USEFUL SATS REVISION WEBSITES

We are so proud of how your children have committed themselves to the practice SATs we completed in school, but now it is time to get ready for the Summer ones.
